*Vice Principal*

April 6, 2020

I hope you and your family are doing well. The return from Spring Break was not the same without the faces of our students in our classrooms. We miss their laughter, curiosity, and eagerness to learn.

Teachers are currently making phone calls and will be connecting with you as we make plans for our students. If you do not hear from teachers, please check your voice mail and phone the school between 8:00 and 3:00 to ensure we have current contact information.

It is important for families to know that learning will look very different from class to class and from school to school and even very different from what is happening within the communities in our province. The intent is not to replicate what learning looked like in classrooms but to support students with their learning, offering technology and non-technology options, as we move forward.

For up to date information, please visit the School District 28 website at [www.sd28.bc.ca](http://www.sd28.bc.ca) under News, COVID-19: Updates. Here you will find updates from the Ministry of Education, along with Parent Resources and a link to the Essential Service Worker Survey.

We appreciate your support and patience as we navigate the continuity of learning. Please be safe and please take care of yourselves.

Sincerely,

Dennis Hawkins-Bogle
